

Partners In Policymaking 2019 Class Application

Partners make a difference!

What is "Partners"?

Partners is a leadership training program designed for self-advocates and parents of young children with developmental disabilities. The program is based on a national model which began in Minnesota over 25 years ago. The goal of Partners is to develop productive partnerships between people who need and use services and those who are in a position to make policies and laws.

Partners graduates are in more of a position to help change these policies and laws through the knowledge they gain through participation in the program. They will have opportunities to meet and talk with national leaders in the developmental disabilities field, and become acquainted with and connected to organizations, opportunities, and endless possibilities.

The program provides information and the development of skills around current issues, state-of-the-art approaches and best practices, and policymaking and legislative processes at local, state and national levels.

What Is My Role As a "Partner"?

The Missouri Developmental Disabilities Council is currently accepting applications from interested people for the 25th Partners class! The program is open to a limited number of people. If selected, the Council will pay for lodging and meals and reimburse participants for travel. Depending upon individual needs, respite and attendant care may also be reimbursed.

Participants will be expected to:

- make a commitment to attend eight two-day sessions between February and September 2019.
- complete all homework assignments, to include one major project designed to meet competencies.

All sessions will begin at noon on Friday and conclude late on Saturday afternoon. This commitment is necessary to benefit fully from the training. Partners graduates agree that the commitment is well worth the life changes that result from the training program.

Attendance at ALL sessions is mandatory.
Only individuals selected to participate in Partners in Policymaking will be able to attend.

What Topics Will Be Addressed?

- History of Disability Movements: Parent, People First, Independent Living
- Quality Education
- Employment, Housing and Person Centered Planning
- Positive Behavior Supports
- Parliamentary Procedure: How to Take Control of Meetings
- State/Federal Policy and Legislative Issues and the Process by Which You Can Channel Your Concerns
- Assistive Technologies for People with Disabilities
- Community Organizing

- People who represent different cultures throughout the state

"The Partners in Policymaking training was a life-changing experience. The first sessions were emotional because they forced me to think about my son as an adult, which was something I never allowed myself to do. I now have a much brighter future in mind, and it doesn't scare me to think about planning for his future . . . and mine."--
Tammy Wheaton 2012 Graduate

"Absolutely invaluable experience! I am constantly pulling from materials I was given or reading off the listserve. Partners really helped me direct my focus and energies to a broader level." --
Michelle Levi-Perez, 2006 Partners Graduate

Applications must be postmarked by December 7, 2018 to be eligible

Individuals selected to participate in Partners will be notified by mail by the first week of January 2019.

Developmental Disabilities Definition

The term “developmental disabilities” means a severe, chronic disability of a person five years of age or older which --

(A) is attributable to a mental or physical impairment or a combination of mental and physical impairments;

(B) is manifested before the person attains age 22;

(C) is likely to continue indefinitely

(D) results in substantial functional limitations in three or more of the following areas of major life activity:

- self-care,
- learning,
- self-direction,
- economic self-sufficiency; and
- receptive and expressive language,
- mobility,
- capacity for independent living,

(E) reflects the person’s need for a combination and sequence of special, interdisciplinary, or generic care, treatment, or other services which are of lifelong or extended duration and are individually planned and coordinated; except that such term when applied to infants and young children means individuals from birth to age five, inclusive, who have substantial developmental disability or specific congenital or acquired conditions with a high probability or result in developmental disabilities if services are not provided.
