MODDC's Public Policy Priorities for 2027

MODDC
Missouri Developmental Disabilities Council

1 Protect Medicaid Access and Home and Community-Based Services (HCBS)

MODDC will advocate for:

- Protection of HCBS funding in the Missouri State Budget for people with disabilities.
- Improvement of the inefficiencies and challenges of navigating Medicaid waivers, including how to apply for a waiver, understanding the waitlist, and knowing where to find and receive services once approved for waiver services.

2 Advocate for Policies that Help School-Age Students with Disabilities and Their Families

MODDC will advocate for:

- Benefits of parental consent to major changes in Individual Education Plans (IEPs).
- Ending the use of seclusion in Missouri schools.
- Other education-related issues experienced by students with disabilities.

Share your own personal story with your state representative and senator about why these priorities or one of them matters to you.
